CIEH Award in Environmental Principles and Best Practice L2 1 Day	Pre-requisites:	None
Course aims <p>This one day course is for all members of staff whose activities could have a significant impact on the environment or supervisors or managers who are being introduced to environmental issues for the first time.</p> <p>Environmental issues impact on every organisation. The rising costs of energy and raw materials, growing awareness of stakeholders and increasing environmental legislation are forcing organisations to address their own environmental performance.</p> <p>Many organisations have identified that tackling environmental issues can bring benefits to their business including reduced waste and utility costs, reduced liabilities and access to new markets and investors.</p>		
Certified by <p>The Chartered Institute of Environmental Health</p>		
Course Delivery <p>Training room “chalk and talk”, video/DVD/Web presentations. Delegate exercises. Where possible the course leader will use assessment systems and forms adopted by the client and in so doing reinforce their value and availability to delegates.</p>		
Successful completion of the training programme and assessment will enable candidates to understand:		
<ol style="list-style-type: none">1. Identify primary local and global environmental impacts of their organisation2. Understand key terms and definitions of pollution3. Learn basic principles, key concepts and importance of environmental law4. Identify the link between their jobs and a range of environmental impacts5. Understand business benefits of adopting an environmental management system6. Identify key issues related to energy use and carbon management, waste minimisation, water use, pollution and emergency planning		
End test <p>The course will conclude with a practical assessment and multiple choice exam, designed to confirm understanding of the key learning points.</p>
